# Safety and security never looked so good.

Silver Shield™ is made from an eye-catching material that's lightweight and tear resistant. The specialized high-sheen Silver Shield material is a one-of-a-kind canvas on which your four-color process colors come to life. Silver Shield will provide a powerful contrast element to whatever your business can imagine. When you print with Silver Shield,

your printing pops. But there's more to Silver Shield than just its slick appearance. Silver Shield material is strong, lightweight and moisture resistant. That means you can send your documents with confidence knowing that once inside a Silver Shield envelope, your documents arrive in style.

**Silver**  
**Shield™**

## SILVER SHIELD™ FEATURES

This one-of-a-kind material secures your documents, looks great, and stands up to anything you can throw at it. Ship with style. Ship with Silver Shield.

- **It Shines**

Eye-catching material brings four-color process colors to life and makes PMS colors pop.

- **Shields Documents**

Made from a strong, lightweight, tear- and puncture-resistant material. Silver Shield is like armor-plating your documents.

- **High and Dry**

Water and moisture resistant so your documents arrive safe and secure, not soggy or stained.

- **Keep Prying Eyes Out**

The unique Silver Shield material is so opaque it keeps the contents of your shipments confidential.

# Silver Shield™

Silver Shield is engineered to be the most distinct, soft packaging material available today. Combining intense durability, tear resistance and moisture protection with a printing canvas that pops. Silver Shield will set your mail and packages above the competition.
